The international film market **BALTIC EVENT** consists of the following sections:

- **Screenings:** the newest features from Estonia, Latvia and Lithuania are screened for international TV and film professionals – sales agents, distributors, TV buyers and festival directors are invited.
- **Coming Soon:** a programme introducing film projects in development and in production with the purpose of meeting the requests of co-financiers and distributors to see the projects at an early stage.
- **Co-Production Market:** projects from the newest members of the European Union, Russia, Ukraine and Scandinavia are represented. Central to the Co-Production Market are **one-to-one meetings** between project representatives and potential financiers, which are set up in advance by the market organisers.
- **Special Initiatives** include a country focus each year - this year on **Azerbaijan** - and an **Industry Day** panel series, focusing yearly on different themes that are important to the European film industry.

Participation in the BALTIC EVENT CO-PRODUCTION MARKET gives producers an efficient possibility to create or extend their international network. BALTIC EVENT has become an efficient working platform not only for the Baltic region, but also for Scandinavia and Central Europe, as well as Russia.
