**CPH:DOX** is Scandinavia's largest documentary event and is devoted to supporting independent and innovative filmmaking from across the world. CPH:DOX screens 200 films, shows art exhibitions, organises concerts, professional seminars, parties, a digital film market and the 5th edition of the financing and co-production forum CPH:FORUM.

**CPH:FORUM** is CPH:DOX's international financing and co-production event dedicated to help facilitate the development and financing of creative and visually strong film projects. It brings together key international financiers, all intent on discovering the latest independent and innovative works from documentary filmmakers, fiction filmmakers and visual artists.

Reflecting CPH:DOX' overall interest in strong cinematic films, crossing boundaries between fiction, documentary and art, CPH:FORUM explores new, untested ways of breaking down conventional notions of genre.

The Forum has 3 main focus areas:

**FICTION/NONFICTION:** A line-up of challenging works in the ever-growing hybrid landscape between fiction and non-fiction.

**CINEMA:** High end theatrical feature length documentaries with international distribution potential.

**ART:** Film projects conceptualized to be screened both within the institution of cinema & that of visual arts.

By inviting professionals from across different sectors, we hope to create new and alternative alliances and partnerships across the landscape of fiction & non-fiction and to ensure the full artistic production and commercial potential of the up-coming films.

CPH:FORUM is a 3-day event offering project presentations, tailored one-on-one meetings, seminars, case studies, informal networking, dinners and good old fun.

### **EAVE partnership**

CPH:FORUM selects a minimum of 2 EAVE projects and covers the accreditation of the filmmaking team along with travel and accommodation for the producer.
