The **HOLLAND FILM MEETING**, a sidebar of the **Netherlands Film Festival**, aims at international and national film professionals. The HOLLAND FILM MEETING consists of the **Benelux Screenings (BS)**, the **Netherlands Production Platform (NPP)**, **Workshops and Panels**, the **Variety Cinema Militants Lecture** and the **Binger-Screen International Interview**.

The **Netherlands Production Platform** is designed as a 4-day event where Dutch and European filmmakers and financiers meet and discuss new feature film projects with a focus on reviewing the stories, international appeal and market potential. Its goal is to encourage, promote and initiate the co-production of European feature films. The maximum of selected projects is 25.

Project criteria

Only feature films, suitable for co-production, with a minimum duration of 90 minutes and with local financial support in place are accepted. Selection includes travel and accommodation for 3 nights for 2 persons per project.
