SOFIA MEETINGS is an event organized within the framework of the **Sofia International Film Festival**. It is orientated towards a professional audience (producers, directors, world sales agents, distributors, representatives of financing organizations and film festivals).

SOFIA MEETINGS has two separate modules:

- **Feature Films Pitching** – presentation of feature film projects looking for financial support and coproduction partners
- **Balkan Films Showcase** – screenings of the latest Bulgarian and Balkan films for directors and programmers from different international festivals.

Projects criteria for Second Films Pitching:

- first, second and third feature projects of the director
- all European countries are eligible to apply
- additional section for projects, originating from countries out of Europe

The aim of SOFIA MEETINGS is to promote new projects of young European filmmakers and new films from **Bulgaria and the Balkan region** to European film festivals and distributors. SOFIA MEETINGS is one of the key spots of the Sofia International Film Festival.
